

HyFilm® LEO EPG

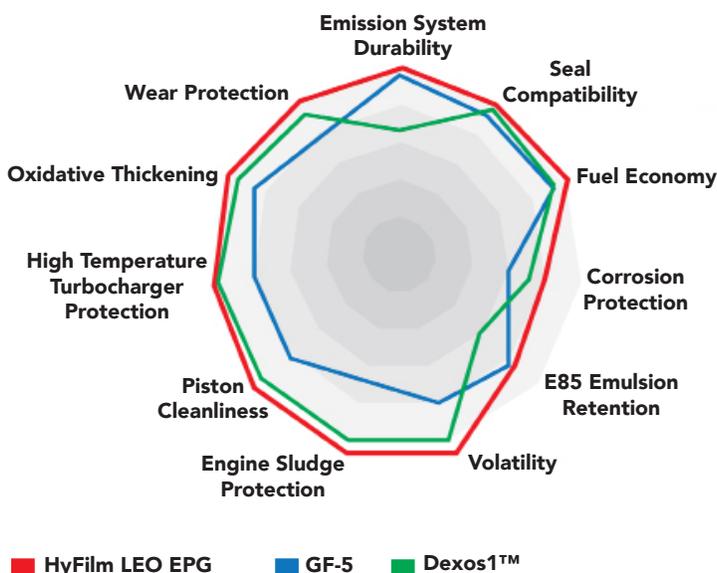

*Extended Performance Gasoline
Engine Oil*

Whether you work with a gasoline-driven fleet of lift trucks, work trucks, or service vehicles, you need an oil that can improve fuel economy, extend drain intervals and provide maximum engine protection while keeping your fleet running reliably and safely. HyFilm LEO EPG is designed with these rigorous demands in mind and is the ideal choice for any gasoline powered fleet or vehicle, as well as select natural gas powered vehicles such as buses and forklifts. Today's modern, high-output gasoline engines require an engine oil that has been precisely engineered to optimize performance.

ATTRIBUTES

- **Exceeds fuel efficiency requirements** and warranty requirements of modern gasoline engines
- **Robust additive package** minimizes corrosive and abrasive wear
- **Excellent thermal and oxidative stability** reduce oxidative thickening and sludge formation
- **Superior TBN** reduces deposit formation and bore polishing while effectively neutralizing acidic contaminants
- **Reduced oil consumption** due to low volatility base oils
- **Consistent engine protection** from shear stable base oil and polymers
- **Outstanding low temperature fluidity** for easy start-up
- **Available** in SAE 5W-20 and 5W-30

HyFilm LEO EPG exceeds the latest API and ILSAC specifications as well as the General Motors dexos 1™ specification.

EXTENDED SERVICE INTERVALS AND LUBRICATION MANAGEMENT

Optimize drain intervals by using HyFilm LEO EPG engine oils in conjunction with Hydrotex Engine Oil Analysis. Save time, money, fuel and natural resources while maximizing the efficiency of your fleet.

Lubrication Management | A Collaborative Process with Hydrotex.

Hydrotex is a manufacturer and distributor of high performance lubricant and fuel improver solutions. As an employee owned company, we help our customers develop sustainable solutions designed to improve system reliability, save energy, limit pollution, extend fixed asset life, reduce maintenance costs, and improve fuel efficiency. For more information on HyFilm LEO EPG and other Hydrotex Lubrication & Fuel Management Solutions, please contact your local Hydrotex representative.

SPECIFICATIONS

HyFilm LEO EPG meets or exceeds performance criteria for the following specifications:

- API SN Resource Conserving (API Starburst)
- ILSAC GF-5
- GM dexos 1™
- Ford WSS-M2C945-A (SAE 5W-20)
- Ford WSS-M2C946-A (SAE 5W-30)
- Chrysler MS-6395T

ILSAC Approved
International Lubricant
Standardization and
Approval Committee

ULTIMATE ENGINE PROTECTION WITH HYFILM LEO EPG

Sludge can cause significant problems, including blocked oil feeder pipes which can lead to oil starvation and potential engine failure. HyFilm LEO EPG provides superior sludge control to keep your engine cleaner longer.

Another key attribute of a lubricant is its ability to maintain piston cleanliness in an engine. If deposits are allowed to build up in the piston ring area, it causes the piston rings to stick and seize leading to excessive blow by and premature engine wear. HyFilm LEO EPG prevents this sticking and seizing, delivering excellent piston cleanliness.

FOR BEST RESULTS, USE HYFILM LEO EPG IN CONJUNCTION WITH:

Essentialube®

Keep your engine in pristine condition by flushing with Essentialube, our powerful blending agent which reduces the harmful effects of engine acids and increases engine life. Contains ashless additives and pure hydrocarbon ingredients, contains no metallic additives and will not void warranties.

Injector-Kleen™

Restores power and torque to your gasoline engine, reduces emissions and improves fuel economy. Cleans combustion chamber deposits, fuel injectors, carburetors, intake valves and ports, and helps remove water to fight gas line freeze. To maintain LIKE-NEW engine performance, the recommended treatment is just once every 3000 miles!

HyPlex™

Ensure maximum protection of your wheel bearings, chassis points and fifth wheels with HyPlex automotive grease. This multi-functional synthetic grease is formulated to excel under conditions of high heat, high speed, vibration, moisture and heavy loads. NLGI GC-LB certified.

THE HYDROTEX ADVANTAGE

Hydrotex leverages over 80 years of experience in manufacturing and distributing high performance industrial and automotive lubricants and fuel improver solutions while implementing effective reliability programs for our customers in the United States.

Don't Pollute, Conserve Resources, Extend Maintenance Intervals
Reduce Your Carbon Footprint
